

Once is All It Takes

Are you frustrated because your floors look dingy no matter how often you clean them? Don't feel bad. It's not your fault!

Fitzwilliam

OVER TIME, dirt and contaminants are absorbed into the porous surfaces of your floors, which dull tiles and cause grout to darken. When you clean your floors with a mop, you are only able to penetrate the uppermost layer, leaving nasty stuff to fester underneath. Scrubbing has a tendency to push soil deeper into the floor, causing unsightly staining and permanent darkening. Traditional cleaning methods simply aren't able to extract grime that is embedded in your surfaces. It takes a combination of high heat (to open the pores in your floor), high suction, and pressure, as well as a quality emulsifier, to adequately remove all the junk under the surface. Only the perfect combination of pressure, heat, and extraction will effectively remove all foreign contaminants from hard surfaces, leaving them spotlessly clean and sanitized.

Once your floors have been redeemed to their former beauty, you may choose to seal them. Surface Doc's sealer provides the ultimate protection for most hard surfaces, including natural stone floors and countertops, tile and grout, and many others. Since the molecules penetrate deep into porous materials, they bond permanently together, thus creating a deep barrier of protection. This process protects your floors and hard surfaces from staining, efflorescence, cleaning chemicals, traffic, sunlight, and even high pressure hosing. Using Surface Doc's lifetime-guaranteed sealer ensures that no nasty grime will ever darken your floors again. Sealers also make cleaning in the future a breeze and will guarantee your floors look like new for years to come.

John and his Surface Doc crew can safely clean all surfaces inside and outside your

home, from the kitchen and bathrooms to the driveway, pool deck, and even the sidewalks. It's no wonder Surface Doc has become the leader in this area for hard surface restoration, as well as carpet restoration. As always, they offer fast, effective, and affordable service. You may visit Surface Doc, inc. online at www.SurfaceDoc.com to see before and after photos, as well as streaming videos of John's cleaning tools in action. Give Surface Doc a call today at 865-567-1986 to request a free, no-hassle home demonstration.
