

# Not All Valentine's Are Chocolate

**S**URPRISES COME in all shapes and sizes, but there are two distinct types... good and bad. While good surprises can leave you feeling warm and fuzzy for years, bad surprises can wreak all kinds of havoc and inconvenience to your life.

What's the best surprise you ever received? I can think of a few that still evoke warm memories and a smile. Several years ago, my husband called to tell me to shower and change quickly. "Wear something nice but comfortable," he said "Don't worry about the kids; a sitter is on her way." A limo driver whisked me away to a spa where I was pampered with a facial and a most needed body massage! Later that evening, the same driver shuttled me and several other ladies to a secret dinner where our husbands sang love songs quartet style and prepared a five-course meal for us to enjoy. I

was the envy of all my friends that year, and I of course soaked up the attention!

February is the time each year when we should take some time to create those lasting memories and do something extra for those we love. Dinner and a movie? Absolutely. But, don't stop there. As a woman, I know we all love to feel special. We need those occasional "over the top" surprises that spice up our marriage and make us feel cherished.

Each February we get numerous requests for surprise cleanings. We've cleaned while the misses was at work and while the mister has been sent out for some "man time." Everyone loves a clean house, especially when you aren't the one doing the cleaning. If you are struggling with what to do for the love of your life, let us help. We are experts at making everything sparkle and shine and helping you create the ambience in your home that fosters those coveted warm, happy feelings.

Also, in the spirit of surprises, we have one of our own. Anyone that books a cleaning during February will get something special from our crew. Perhaps it's an extra room cleaning or a deep-cleaned front porch. Each home is unique, but we look forward to surprising YOU and helping you surprise the one you love.

Tip: If your partner is the type that needs a little help zeroing in on exactly what you want, you can shamelessly snip this article and put it on the fridge. I have even been known to leave articles open on the coffee table with portions highlighted, and it even worked... once.
